

## PRESS RELEASE

### Record sales: Successful close to the financial year for Vogelsang

- **2023 sales: 202 million euros**
- **Product portfolio expanded and modified**

**Essen (Oldenburg), May 6, 2024** – [Vogelsang GmbH & Co. KG](#) (Vogelsang Germany and subsidiaries) breaks the 200 million euro mark and reports annual sales of 202 million euros in 2023. This represents an increase in sales of around 17 % compared to the previous year – driven in particular by the Agricultural Technology, Biogas, Wastewater and Transport Technology business divisions.

“We are delighted to have once again significantly exceeded our sales expectations in 2023 and that we can report such a record year,” says Harald Vogelsang, Managing Director of Vogelsang GmbH & Co KG. He also says: “Our broad product portfolio and our international focus make us crisis-proof, even in fast-changing times. Therefore, together with our dedicated employees, we are celebrating our 95th year since the company was founded.”

#### Successful product launches

With new and modified products such as the BlackBird trailing shoe system with a working width of 30 meters and the SwingMax5 Slide trailing shoe system with a working width of 24 meters in the agricultural sector, as well as the new generation of PreMix solid matter feeders in the biogas segment, Vogelsang responded to the market's high demand for innovative and tailor-made solutions. In addition to the biogas sector, the HiCone progressive cavity pump is also used in other branches of industry.

#### Expansion of the workforce

Last year, the company gained around 120 new employees worldwide – including 25 trainees. Vogelsang is currently training around 75 apprentices and dual students and was awarded the “TOP TRAINING” quality seal by the German Chamber of Commerce and Industry in 2023. Last year, Detlef Ruhmke and Michael Brinkmann also joined the management team. Harald Vogelsang: “Supporting our customers with our technology and expertise is what continues to drive us in 2024. And that’s why we are always

working on further innovative solutions and engaging with users to further expand our product portfolio in line with demand.”

This year, the internationally active family business will once again be represented at a number of trade fairs, including IFAT from May 13-17 in Munich, ACHEMA from June 10-14 in Frankfurt am Main, as well as EuroTier and EnergyDecentral from November 12-15 in Hanover.

**About Vogelsang:**

Vogelsang GmbH & Co. KG, headquartered in Essen (Oldenburg) in Lower Saxony, develops, produces and sells technically high-quality, individually configurable, service-friendly machines. Founded in 1929, the company grew from manufacturing agricultural machinery to specializing in machines and solutions in the wastewater, agricultural technology, biogas, industrial and transportation technology segments. The innovative family-owned company currently employs over 1,300 people worldwide. As an internationally oriented mechanical engineering group, the company ensures the highest product quality through research, development and production at its Essen location and other production facilities, both in Germany and abroad. With 30 subsidiaries and other representatives, Vogelsang is present in over 50 countries around the world. The company has already received several accolades from the economic research institute Prognos AG, including the award “Germany’s innovation leader.” Further information can be found online at: [vogelsang.info](http://vogelsang.info)
